

## Questionnaire Sheet

Name: \_\_\_\_\_ Email: \_\_\_\_\_

Phone: \_\_\_\_\_ Address: \_\_\_\_\_

What vehicle type do you have? \_\_\_\_\_

What is the GTW of your trailer/caravan? \_\_\_\_\_

What is the coupling type you are using? (e.g. 50mm, D045, McHitch etc) \_\_\_\_\_

What is your receiver size? (e.g. 2", 2.5") \_\_\_\_\_

Do you intend to use a weight distribution system? Yes/No

Please select from the following options what height you would like your mounting plate tongue height to be, relative to the centre of your receiver pin hole?

### 4-hole

125mm above ☐

85mm above ☐

40mm above ☐

10mm below ☐

55mm below ☐

100mm below ☐

### 6-hole

level ☐

45mm below ☐

90mm below ☐

### 10-hole

180mm above (highest position) ☐

135mm above ☐

85mm above (lowest position) ☐

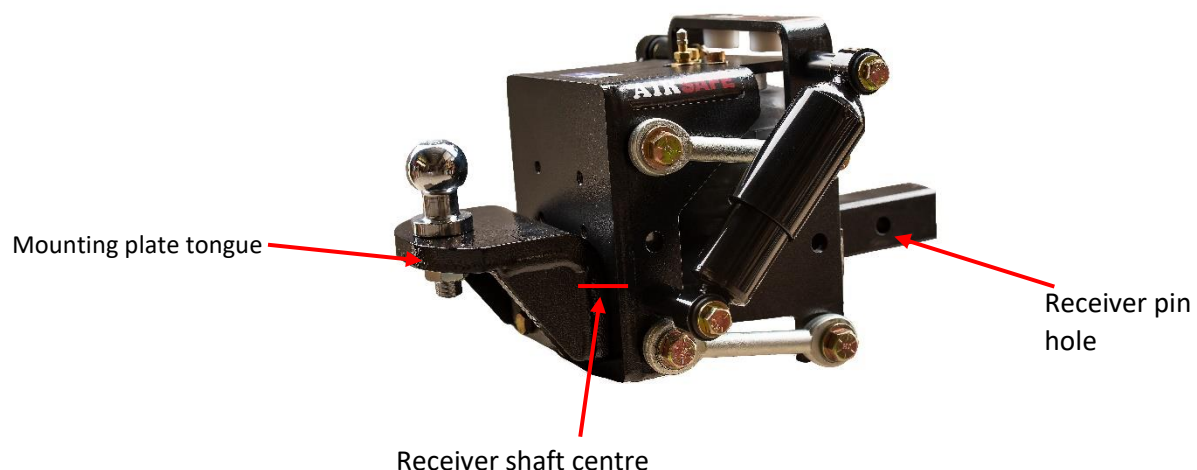

65mm below ☐

70mm below ☐

150mm below ☐

200mm below (lowest position) ☐

Example below: 4-hole Standard Mounting Plate

\*Please note we cannot go any lower then 90mm below the centre of the receiver to the top of the tongue for a D045, D035 or Hitch-Ezy.

If you are uncertain or unable to select from the above, please provide measurements of your preferred tongue height using the below example and we will work out your mounting plate for you.
