WHAT'S IN THE BOX

LHS and RHS Connecting Pipes

Made from 2.5" 409 Grade Stainless Steel which is designed to dissipate the heat faster than higher grades of stainless. We designed this system using state of the art 3D CAD and advanced CNC mandrel benders to allow OEM level clearances, especially around the actuator on the transmission. Just bolt to the existing secondary cats and you are halfway there.

Sports Muffler Pipe

Both connecting pipes mate up to one single flange which utilizes our pressed exhaust studs. These studs have been custom designed to allow ease of fitment for both professionals and DIY enthusiasts. No more digging around for that missing socket, one spanner is all you need to join the entire system together!

To avoid drone, we use a dual in/out muffler that's chambered to give the deep note a V8 deserves. The pipework exits the muffler into a precision cut 3" y-pipe that merges to into one single mandrel bent pipe that bolts to the existing over axle pipe.

Worried about backwards compatibility? No need, we supply a new hanger and new rubber mount to allow fitment on previous generations of Y62's*.

Full Fitting Kit

All Outlaw 4x4 systems are supplied with an extensive fitting kit. We know things don't always go according to plan, so not only have we supplied the required fasteners and gaskets to connect the system, we have also supplied replacement studs and nuts for the factory fitted parts.

All brackets that mount to the chassis have also been e-coated to GM specifications and fixings are an advanced Zinc Flake finish, thus ensuring your chassis isn't compromised from corrosion.

* Fitment and 3D CAD design confirmed on Y62 Series 5 vehicle. Whilst all efforts have been made to ensure fitment accuracy based on the data available to Mercury Mufflers, certain generations and factory/aftermarket components may result in the modification of the supplied Exhaust upgrade. Mercury Mufflers do not take responsibility for additional charges that may be required in the event of these circumstances. The 5-year warranty provided on Outlaw 4x4 Exhaust systems covers only the supplied product at time of purchase. Modifications, penalties, or damage caused from fitment is not covered under our warranty conditions.
